This exciting presentation builds a shared understanding of our Region One young people's strengths and concerns of Northwest CT, based on findings from Search Institute's Survey results of Developmental Assets, administered in Fall 2011.

The presenters, including students themselves, will provide and suggest possible interpretation of the survey data and point toward concrete actions our community can use to help build on its strengths.

Come see what we've been talking about, and what our students think about the results!
