Chambers of Commerce

Chambers of commerce connect you with other local leaders in commerce and are a way to educate yourself about the organizations in your community that might be hiring. They also list job postings from members and can help get your "foot in the door."

SCORE

[Northwest CT SCORE](#)

The Northwest Connecticut Chapter has mentors with a wide variety of business backgrounds and familiarity with both the business environment in the northwest corner and the national business scene. Mentoring is free and strictly confidential. Workshops may involve a small fee to cover expenses or are free depending on our costs and sponsorships.

SCORE mentors are all volunteers either retired from business careers and others who are still actively working. If your situation does not fit under the expertise of our local chapter you will be referred to one of the six other SCORE chapters in Connecticut or to email or phone mentoring.

About 60 percent of our clients are interested in starting a new business. The other 40 percent are in business and looking for help in solving a particular problem or in making significant changes or improvements in their businesses. SCORE mentors on the planning aspects for any business organization and then on the follow-through and implementation.
